

MY CACTUS GRATITUDE GARDEN

YOU WILL NEED:

- access to a printer
- colouring tools
- thick paper
- light cardstock paper
- scissors & craft knife
- paper cup
- glue

1. **Print** out the Cactus Gratitude Garden template on thick paper.
2. **Colour** in the cactus and flowers if using the black and white version template.
3. **Cut** out each cactus and the flowers. Remember to cut along the dotted line in the middle of each cactus shape to make a slot.
4. **Slot** the 2 matching cactus shapes together to create a 3D cactus. Repeat for each cactus.
5. **Place** the paper cup upside down on a separate piece of card and trace around the top to create a circle base.
6. **Cut** out the circle base, making it slightly smaller so it will fit inside the paper cup.
7. **Work** out the position for each cactus on the base, mark a cross using pencil, then cut the 3 crosses using the craft knife. These will be the slots for each of your cactus to sit in.
8. **Fill** the paper cup up with scrunched up paper (you can use your paper scraps). This will be the pot.
9. **Insert** each cactus into the slots on the base.
10. **Place** the base on top of the scrunched paper in the paper cup pot.
11. **Find** 1 thing to be grateful for each day. Write it down on a flower and glue the flower to the cactus.

SEE HOW QUICKLY YOUR CACTUS GRATITUDE GARDEN CAN GROW FLOWERS!

WE'D LOVE TO SEE YOUR CACTUS GRATITUDE GARDEN, SO REMEMBER TO TAG US!
